

ESTA Edition

ESTA publishes the „ESTA Edition“ at the music publishing house „Müller&Schade AG“ in Bern. All editions are marked with the ESTA logo. The edition line includes music-pedagogical works, music-theoretical and music-historical essays as well as compositions for string instruments. All titles that are considered for edition line are being reviewed by a working group which is composed by members of ESTA Switzerland and ESTA International. This working group decides about the admission of the titles for publication. The authors sign a contract with Müller&Schade and don't carry any financial risk.

ESTA receives a commission of 5% of the price of sale for every title. **The members of all ESTA branches receive a discount of 15% on all publications of ESTA Edition.**

ESTA Edition is meant to be a unique and important platform for new publications for all national and international members. If you are interested in publishing a work within ESTA Edition, please get in touch with the secretariat of ESTA Switzerland: esta-sekretariat@gmx.ch
